We actively seek opportunities to promote equality between recognised groups with a view to have an inclusive environment where everyone feels welcome.

## SENDO

The Special Educational Needs and Disability (NI) Order 2005 (SENDO) came into effect on 1st September 2005. The principle behind the further and higher education sections of this legislation is that people with disabilities should have the same opportunities as others wherever possible within education.

The College has been proactive in the area of equality and will continue to explore ways of facilitating students to maximise their learning experience.

## Widening Access and Participation

Our aim is to improve wellbeing for everyone by providing academic pathways which are economically viable and lead to employment.

The collaboration with the Universities is allowing 'Access' to Higher Education for adults who were previously made redundant, or change career direction, the unemployed or those who hadn't considered progressing in education to access both Full and Part-time education allowing them to rethink their educational pathway.

Our Careers Academy has an inclusive ethos supporting the Widening Access and Participation Plan and 'Access to Success' with the Widening Access and Participation Officer working with disadvantaged communities and delivering the 'Inspire' programme.

# Higher Level Apprenticeships

**A Higher Level Apprenticeship (HLA) is a unique work based programme, which enables participants to earn while they learn, and gain a nationally recognised higher-level qualification.**

Successful candidates will be employed in a company relevant to their chosen profession to gain valuable industry experience.

This experience will feature a close mentoring relationship and academic support provided by NWRC as they progress through their higher-level qualification. The HLA programme is widely recognised as the best combination of on-the-job training and employee higher level study available. The programme offers employees the opportunity to gain a Level 4 or Level 5 qualification.

In addition, the programme aims to improve business practice by developing a progressively skilled workforce essential for today's competitive economic climate.

**Programmes we offer**  
NWRC has led the way in developing the HLA provision within Northern Ireland, based on strong links with academic partners and business.

We are currently offering programmes in the following areas:

- Accountancy
- Business and Enterprise
- Construction with Renewables
- Electrical and Electronic Engineering
- FinTech
- General Engineering
- Hospitality and Tourism Management
- Leadership for Children Care, Learning and Development
- Software Development
- Mechanical Engineering

**Who is eligible to apply?**  
Opportunities are available for new employees or an existing employee in a new job role to gain qualifications from Level 4 upwards. Entry criteria will depend on the apprenticeship pathway. Please refer to our website for more information: [nwrc.ac.uk/courses](http://nwrc.ac.uk/courses)

**What are the benefits?**  
By taking part in a HLA, you can gain the skills that employers need and that are relevant to the local economy, therefore improving your prospects of good earnings and sustained employment.

Other benefits include:

- Achieve a professional level qualification without the tuition fees
- Earn a competitive salary
- Gain increased opportunities for career progression
- A clear pathway to achieving ambitions in the workplace

**How much does it cost?**  
Higher Level Apprenticeships are fully funded by the Department for Economy (DfE). There are no course related costs to the apprentice or employer.

### Modules (Units)

Each course is made up of a number of modules (units). Some are compulsory (core), while others are optional.
